**DECLARATION OF JAYSON S. DUKES REGARDING MONTANA'S CLAIMS**

### **Introduction**

1. I am a Managing Director in the Forensic and Litigation Consulting Practice of FTI Consulting, and a part of FTI's Life Sciences Regulatory Practice. A copy of my curriculum vitae is annexed as Exhibit 1.
2. FTI was retained by counsel for the Johnson & Johnson Defendants (the "J&J Defendants") to calculate the rebates paid to the State of Montana on a representative list of the J&J Defendants' medications. FTI's calculations are based on data provided by the J&J Defendants, which data, I am advised, has also been produced to Montana's counsel.
3. I reserve the right to supplement or modify this submission, if warranted, and to prepare additional supporting materials, such as summaries, graphical exhibits, charts, and the like, or to respond to any additional claims or analyses provided by Montana.

### **"Overcharge" Analysis**

4. Pharmaceutical manufacturers, including the J&J Defendants, pay rebates to Montana on drugs administered and dispensed under Montana's Medicaid program. *See In re Pharmaceutical Industry Average Wholesale Price Litigation*, 457 F. Supp.2d 65 (D. Mass. Sept. 6, 2006)
5. The rebates that manufacturers pay to Montana reduce Montana's net cost of reimbursing Medicaid providers for these drugs. I am informed that the Hon. Patti B. Saris has ruled that any damages allegedly incurred by the states as a result of alleged overcharges under their respective Medicaid programs "will necessarily be reduced by the rebates the state received," and, therefore, "may play a role in determining the correct amount of damages in the case." *In re Pharmaceutical Industry Average Wholesale Price Litigation*, 457 F. Supp.2d at 74-75.
6. I have been asked to determine the extent to which rebates paid by the J&J Defendants offset or exceed the damages allegedly incurred by Montana as a result of alleged "overcharges" by Montana's Medicaid providers. At present, the only damages calculations I have seen pertaining to drugs sold by the J&J Defendants are those set forth in the Declaration of Raymond S. Hartman dated June 13, 2006 ("Hartman Declaration").<sup>1</sup>
7. According to Dr. Hartman, through 2004, Montana incurred alleged "overcharge damages" with respect to Procrit®, a drug sold by Ortho Biotech Products L.P., of \$72,814, comprised of \$49,464 in alleged damages for retail pharmacy reimbursements based on NDCs, and \$23,350 in alleged damages for physician-office reimbursements based on J-Code. Hartman Declaration, Tables 1, 2 and 6.

---

<sup>1</sup> Dr. Hartman does not offset the alleged "overcharge damages" by the rebates paid. *See* Hartman Declaration, ¶ 32.

8. Between 1994 and 2004, the J&J Defendants paid Montana a total of \$146,474 in Medicaid rebates with respect to Procrit®. Consequently, the rebates paid on Procrit® exceed the alleged “overcharge damages” by \$73,660, as illustrated in the following table:

**Procrit®**

Alleged “Overcharge” Damages	\$72,814
Rebate Paid	\$146,474
“Overcharge” Minus Rebate	(\$73,660)

9. According to Dr. Hartman, through 2004, Montana incurred alleged “overcharge damages” with respect to Remicade®, a drug sold by Centocor, Inc., of \$25,312, comprised of \$16,384 in alleged damages for retail pharmacy reimbursements based on NDCs, and \$8,928 in alleged damages for physician-office reimbursements based on J-Code. Hartman Declaration, Tables 1, 2 and 6.
10. Between 1998 and 2004, the J&J Defendants paid Montana a total of \$33,566 in Medicaid rebates with respect to Remicade®. Consequently, the rebates paid on Remicade® exceed the alleged “overcharge damages” by \$8,254, as illustrated in the following table:

**Remicade®**

Alleged “Overcharge” Damages	\$ 25,312
Rebate Paid	\$ 33,566
“Overcharge” Minus Rebate	(\$ 8,254)

11. Taking both Procrit® and Remicade® together, the total “overcharge damages” allegedly incurred by Montana according to Dr. Hartman were \$98,126. The total rebates paid on were \$180,040. Thus, total rebates exceeded total alleged “overcharge damages” by \$81,914.
12. Dr. Hartman’s estimate of “overcharge damages” for Procrit® and Remicade® is based, in part, on his calculation of each drug’s ASP. In November 2006, after submission of his reports in this case, Dr. Hartman revised his ASP calculations for both drugs. If Dr. Hartman’s revised ASPs are used in place of his unrevised ASPs, the formula he uses to estimate Montana’s alleged “overcharge damages” yields lower damages figures:

	<b>Procrit®</b>	<b>Remicade®</b>
Revised Damages	\$ 52,115	\$ 20,487
Original Damages	\$ 72,814	\$ 25,312
<b>Difference</b>	<b>\$ (20,699)</b>	<b>\$ (4,825)</b>

**Reserved Analyses**

13. Dr. Hartman has not calculated alleged “overcharge damages” for any drugs sold by the J&J Defendants other than Procrit® and Remicade®, but a similar analysis could be provided in the event that Montana claims damages for other drugs. Annexed as Exhibit 2 is a summary of the rebates paid to Montana during each calendar quarter between 1994 and 2004 on a sample of drugs sold by the J&J Defendants. As set forth in Exhibit 2, during this period, the total rebates paid on these drugs were \$13,213,140. I reserve the right to analyze the relationship between rebates paid and alleged “overcharge damages” for Johnson & Johnson drugs other than Procrit® and Remicade®.
14. In addition to alleged “overcharge damages,” Dr. Hartman also calculates alleged “statute penalties.” Dr. Hartman’s original calculation of the alleged penalties owed by the J&J Defendants was \$205,902,000 (Hartman Declaration, Table 7), an estimate he subsequently reduced to \$10,443,000. Supplementary Declaration of Raymond S. Hartman dated June 20, 2006, Table 7a. These penalty calculations are based on Dr. Hartman’s estimate of the number of the allegedly fraudulent claims submitted to Montana Medicaid by Montana’s physicians and pharmacies with respect to drugs sold by the J&J Defendants.
15. Dr. Hartman’s penalty calculations do not take into account rebates. As Eric M. Gaier, Ph.D. illustrates in his declaration, when rebates are accounted for, Montana’s net reimbursement may be lower than its gross reimbursement, and lower than Dr. Hartman’s lower-bound estimate of pharmacy acquisition costs, AWP less 20 percent. *See* Declaration of Eric M. Gaier, Ph.D., February 8, 2007 (“Gaier Declaration”), Exhibits 3 and 49 (reimbursement inclusive of rebate for Johnson & Johnson’s Risperdal® and Levaquin®). In addition, when rebates are accounted for, Dr. Hartman’s “penalty count” of allegedly fraudulent claims by Montana’s Medicaid providers may be reduced. *See* Gaier Declaration, Exhibit 8. I reserve the right to provide additional illustrative examples as appropriate.
16. Dr. Gaier notes that pharmacies earn negative margins on some drugs, including Johnson & Johnson’s Risperdal®. Gaier Declaration, Exhibit 9. I reserve the right to provide additional illustrative examples as appropriate.
17. Dr. Gaier also illustrates that application of Dr. Hartman’s 30 percent “liability yardstick” may reduce damages and penalties. Gaier Declaration, Exhibits 22 and 23. In my direct testimony submitted at the Track 1 trial of *In re Pharmaceutical Industry Average Wholesale Price Litigation*, I demonstrated that the spreads on Procrit® and Remicade® did not exceed Dr. Hartman’s 30 percent yardstick. *See* Trial Declaration of Jayson S. Dukes dated Nov. 16, 2006, DX 2873. I reserve the right to provide additional illustrative examples as appropriate.

I declare that this declaration is true and correct.
